

working in the river with nets, vernal pool studies, and general ecology (recycling , alternative energy, etc.). These workshops have been provided at zero cost with a lovely lunch included. CREA also gave out classroom materials such as maps and posters relating to ecology studies. These same materials can be purchased at places like the College of the Atlantic, so we can really appreciate getting them for free.

CREA also provides Ecology Camp for students during vacation breaks and during the summer. These camps are staffed by professional teachers and trained youth counselors. In these days of computes and handheld electronic games, CREA is working hard to bring kids and families back into the natural world, encouraging them to become stewards of our dwindling forests and wildlife.

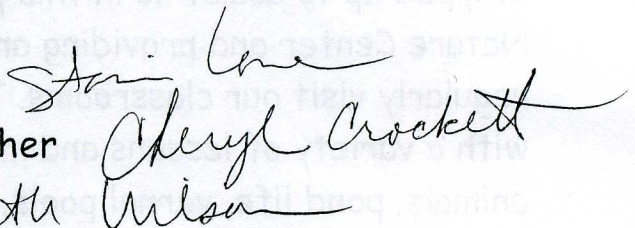

Please support these efforts!!!

Sincerely,

Stasia Lowe, Primary Pod classroom teacher

Cheryl Crockett, Primary Pod classroom teacher

Ruth Wilson, Primary Pod Ed Tech III

The block contains three handwritten signatures in black ink. The first signature is 'Stasia Lowe', the second is 'Cheryl Crockett', and the third is 'Ruth Wilson'. The signatures are written in a cursive style and are positioned to the right of the typed names.
